TITLE 2 OF THE CFR, PART 200 CERTIFICATE OF COST ALLOCATION PLAN

This is to certify that I have reviewed the indirect cost rate plan submitted herewith and to the best of my knowledge and belief.

1. All costs included in this plan dated December 11, 2023 to establish cost allocations or billings for fiscal year ended June 30, 2022 are allowable in accordance with the requirements of 2 CFR Part 200, Uniform Administrative requirements, Cost Principles, and Audit Requirements for Federal Awards, and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
2. All costs included in this proposal are properly allocable to federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.
3. The covered telecommunications and video surveillance services or equipment mentioned in Section 889 of the National Defense Authorization Act of 2019 and covered at §2 CFR Part 200.216, which are unallowable, were not charged as part of the indirect cost proposal directly or indirectly to Federal awards.

I declare that the foregoing is true and correct.

Cost Allocation Methodology and Process

A. Cost Allocation Methodology and Process

The Cost Allocation Plan (CAP) provided in *Section C* was prepared by MAXIMUS Consulting Services, Inc. (MAXIMUS) for WASHINGTON COUNTY, OREGON. Utilizing our proprietary, web-based cost allocation system, MAXCAP™, MAXIMUS used cost data and allocation statistics to allocate the costs to departments/divisions/programs for Fiscal Year (FY) 2025.

MAXCAP uses a double step-down allocation procedure to distribute costs among Central Services and to departments that receive benefits. Using MAXCAP, costs are input by cost center identifications consistent with the entity's accounting code structure, which allows for efficient balancing with the entity's financial reporting systems. Additionally, MAXCAP provides for the inputting of allocation statistics appropriate for the distribution of the identified indirect cost pools. Credits for direct-billed payments, cost adjustments, and other valid and applicable costing factors are also facilitated within the software.

In this section, we provide an overview of our cost allocation methodology and process used to develop the CAP.

A.1 Cost Allocation Methodology

MAXIMUS employs a double step-down procedure that allows all Central Service Departments to allocate costs to all other Central Service Departments. Since Central Service Departments' costs are not simultaneously allocated, the process must be performed sequentially, one department after another. The second step-down allows for the equitable allocation of the costs the Central Service Departments receive from one another.

Typically, CAPs are compiled using a single step down or "waterfall" methodology in which the costs of Central Service Departments are allocated in an ordinal sequence with emphasis placed on ordering non-departmental and departmental cost groupings to optimize the flow of costs to recoverable program areas. Although this is an acceptable method resulting in accurate program allocations, it provides only partial information as to the costs of individual Central Service Departments and their significant activities.

To demonstrate the potential inequity of a single step-down, consider the costs of the Facilities Management and Purchasing activities. Facilities Management manages and maintains the office space that Purchasing uses to serve departments. Facilities costs are rightfully allocable to all the departments that have space in government buildings. If Facilities Management costs are allocated after Purchasing, the cost of Purchasing's space will be allocated to the other departments in the building. It could be argued that this method then allocates costs to departments disproportionate to the benefit received from those costs.

MAXIMUS double step-down approach mitigates potential allocation inequities and has been widely accepted by federal cognizant agencies for more than 30 years.

A.1.1 First Step-Down

The first step-down allows each Central Service Department to allocate to any other department, regardless of the sequence of the departments. The department also can allocate to itself providing the statistical measurements indicate a basis for the allocations.

Process

The process of allocating during this round is achieved sequentially, consistent with the order of the Central Service Departments. As each Central Service Department performs its allocations it allocates:

- Costs from entity financial records
- Cost adjustments
- Credits
- Costs received from other Central Service Departments that have completed their first round allocations
- Results

WASHINGTON COUNTY, OREGON
Full Cost Allocation Plan for FY 24-25
Based on the Adopted Budget from FY 23-24
Cost Allocation Methodology and Process

At the completion of the first step-down, each Central Service Department has the allocated costs from itself and from the Central Service Departments sequenced before it.

A.1.2 Second Step-Down

The rule for the second step-down is that each Central Service Department can allocate only to another department sequenced after the allocating department; provided that the statistical measurements indicate a basis for the allocations.

Process

The process of allocating during the second step-down is achieved sequentially and consistent with the order of the Central Service Departments. As each Central Service Department performs its allocations, it allocates:

- Costs received from other Central Service Departments that have completed their second round allocations
- Costs received in the first step-down from itself and from the Central Service Departments sequenced after the allocating department

Results

At the completion of the second step-down, each Central Service Department has completed all allocations and all Central Service Departments have been cleared of all costs. The costs have either been adjusted out of the cycle or sent to Receiving Departments based on the allocation statistics.

A.1.3 Supplemental Comments

When the relationship between and among the Central Service Departments is greatly intertwined, it may be prudent to implement three or more step-downs. Typically, the double step-down is sufficient to accomplish an equitable allocation of all costs.

If more than two step-downs are required the rules for all rounds of allocation — except the final round — are the same as defined above for the first step-down. The final round always follows the rules, as defined above, for the second step-down.

A.2 Cost Allocation Process

The process utilized by MAXIMUS in developing the CAP and tracking costs within it is discussed below.

A.2.1 Initiating the Process

Working in conjunction with the entity, MAXIMUS determines data to be included within the cost allocation process based on:

- Application of federal cost principles or full costing principles, as applicable
- Interviews
- Review of financial documents
- Review of organizational structure
- Analysis of statistical data relative to benefit of services provided

A.2.2 Establishing the Cost Pools to be Allocated

MAXIMUS analyzes the organizational structure of the entity to determine which departments or cost pools provide services to other departments/divisions/programs. These cost pools become the “Central Service Departments” in the CAP.

Next, each cost pool is evaluated to determine the activities or services provided. The costs are then broken into subparts or activities such that each activity can be allocated on a statistical measure that is relevant to the service provided and the

Cost Allocation Methodology and Process

benefit received.

Line items of expenditures are analyzed to determine which activities receive the benefit of the costs. Distributions of these costs are made according to the determined benefit of each activity.

A.2.3 Establishing the Statistical Measurements or Bases for Allocation

MAXIMUS evaluates available statistical measurements to establish the most equitable and meaningful basis for allocating each activity within each Central Service Department. Consideration is given to determining the measurement that most appropriately demonstrates its relationship to the receiving units. For example, an activity that is driven by the number of employees within the benefiting departments can be allocated by number of employees. Similarly, an activity that is driven by the number of transactions for each benefiting department can be allocated by the number of transactions.

A.2.4 Accommodating Exceptions and Adjustments

Applicable cost adjustments for unallowable costs and/or capitalized assets are incorporated into the appropriate schedules. Credits for direct billings, special revenues, etc. are entered into the computation.

A.2.5 Developing the CAP

The MAXIMUS Cost Allocation Plan typically is organized as follows:

- Cover
- Certification, if required
- Table of Contents
- Cost Allocation Methodology and Process
- Organizational Chart
- CAP: Summary and Detail Schedules
- Supplemental Materials

Below, we discuss each of the summary and detail schedules included in a CAP.

Summary Schedules

The summary schedules provide a recap of the results of the cost allocation process. The following explanations define the purposes of each of the typical schedules included in the cost allocation plan.

Schedule A – Allocated Costs by Department: Schedule A demonstrates for each Receiving Department the costs received from each Central Service Department. This schedule answers the question: Which Central Service Department actually allocated the costs to each Receiving Department?

This schedule does not necessarily demonstrate the Central Service Department from which the costs originated. For example, costs sent from Purchasing to Accounting and then to a Receiving Department will be recorded on Schedule A as being from Accounting.

Schedule B – Fixed Costs Proposed: Schedule B recaps the roll forwards calculated for the Receiving Departments.

The Receiving Departments are shown down the left hand side of the page, while details of the roll forward calculation for particular Receiving Departments are on the rest of the line.

The first column is the *Allocated Costs* for the current fiscal year, which lists the total costs allocated to this Receiving Department. This number will reconcile to the total allocated to the department on Schedule A.

The next column is the *Base Year Estimated Costs* for the fiscal year that have been used for the current period. The *Roll*

WASHINGTON COUNTY, OREGON

Based on the Adopted Budget from FY 23-24
Cost Allocation Methodology and Process

Forward column is calculated by subtracting the *Base Year Estimated Costs* column (second column) from the *Allocated Costs* column for the current period (first column).

The *Fixed Costs* column is calculated by adding in the *Allocated Costs* column for the current fiscal year and the *Roll Forwards* column. The *Proposed Costs Future Period* column is the resulting sum of the *Fixed Costs* and any adjustments from the *Adjustments* column.

In summary, this report takes the difference between allocated costs for the current year (column 1) and the forecast costs for this year (column 2), adds that difference to the allocated costs for this year (column 1) along with any one-time adjustments to produce a forecast (*Proposed Costs Future Period*) for the next period.

Schedule C – Summary of Allocated Costs: Schedule C is the simplest report to use when balancing to the financials. It demonstrates the costs to be allocated, the adjustments made to these costs, and the results of the allocations. This schedule demonstrates the full sequence of all departments with the Central Service Departments listed first and in the order of their allocating sequence.

The Receiving departments follow the Central Service Departments with the total allocations received from all Central Service Departments.

Schedule D – Detail of Allocated Costs: Schedule D provides a view of the allocation flow of costs for each Central Service Department. This schedule allows the reader to see how the process sequentially “zeroes out” all of the Central Service Department costs and allocates them to Receiving Departments.

Schedule E – Summary of Allocation Basis: Schedule E demonstrates, for each Central Service Department, the services or activities of the Central Service Department and the basis for the allocation of each activity. This schedule is a convenient reference for reviewing the activities identified for each Central Service Department. This is particularly important when preparing a new plan and incorporating organizational and services changes.

Detail Schedules

The detail schedules demonstrate the original costs being allocated by each Central Service Department. In these schedules, the adjustments are applied; the activities are defined; the incoming costs from other Central Service Departments are detailed; the allocation calculations for both step-downs are documented; and the results for each Central Service Department are summarized.

When tracking costs, typically the schedules are reviewed in reverse order tracking from summary information back to detail information. This is discussed further in *Section A.2.6: Tracking Costs within the CAP*.

Schedule .1 – Nature and Extent of Services: Schedule .1 is a brief narrative defining the purpose of the Central Service and the benefit it provides to the Receiving Departments. The narrative also describes the allocation basis used for each activity and any other relevant information on expenditures.

Schedule .2 – Costs to be Allocated: Schedule .2 provides an overview of the total costs allocated by each Central Service Department including:

- Expenditures from the financial reports — balances to Schedule C
- Adjustments to financial reports — balances to Schedule C
- Incoming costs from other Central Service Departments

The incoming costs are presented in columns that represent when these costs are allocated by the Central Service Department, not when the costs are received. As explained in *Section A.1: Cost Allocation Methodology*, the costs that are received from Central Service Departments sequenced after the given department are held for allocation in the second step-down.

Schedule .3 – Costs to be Allocated by Activity: Schedule .3 provides the following:

WASHINGTON COUNTY, OREGON
Full Cost Allocation Plan for FY 24-25
Based on the Adopted Budget from FY 23-24
Cost Allocation Methodology and Process

- Expenditures from the financials are defined by type of expenditure and by activities (to the extent deemed necessary) to ensure the application of allocation bases that closely correlate to the benefits derived by the Receiving departments. Each activity is represented in its own column. The totals balance with both Schedule C and Schedule .2 expenditure amounts.
- Adjustments to the financial reports are applied to expenditures and the results spread to the appropriate activities.
- Incoming costs are demonstrated first in total and then spread to the appropriate activities for allocation for each step-down. The totals for each step-down balance to the totals on Schedule .2. It should be noted that incoming costs may be coded to spread to only the activities that receive benefit from the services.

Schedule .4 – Detail Activity Allocations: Schedule .4 represents the allocation results by activity. Each activity defined on Schedule .3 is demonstrated on a Detail Allocation Schedule. Because the number of activities varies, the number of the last of these schedules varies.

Schedule .4 includes:

- Statistical measurement used as a basis for allocation
- Identification of statistical measurement
- Source of the statistical measurement
- Percent relationship of each statistical measurement to the whole or total statistical measurement base
- Results of the first step-down — balances to functional total after first additions on Schedule .3
- Results of the second step-down — balances to functional total of second additions on Schedule .3

The totals allocated from both step-downs balances to the functional grand total from Schedule .3. Note the results of the second step-down. This schedule clearly demonstrates how the second step-down allocates only to departments sequenced after the allocating department.

Schedule .5 – Allocation Summary for each Central Service Department: Schedule .5 provides a summary of costs allocated by each activity. The activity totals balance to the totals from each Detail Activities Allocation schedule defined above.

The totals allocated to the Receiving Departments will balance to Schedule A for the allocating department.

A.2.6 Tracking Costs within the CAP

When costs are questioned, MAXIMUS utilizes our standard tracking process in order to resolve any issues with Schedule A where the questioned cost is usually identified.

From Schedule A, we identify the allocating Central Service Department. From the CAP Table of Contents the appropriate detail schedules for the allocating department are identified. Tracking begins with the last detail schedule. Once the questioned amount is located, our analysis of the summary amounts by activities indicates which detail allocation schedules to review.

Review of each detail schedule will demonstrate the relative benefit received by the Receiving Department for the portion of the questioned cost attributable to each activity. Continuing backward through the detail schedules, the composition of the total functional costs is reviewed.

At this point, any remaining questions are typically in regard to the incoming costs. If these costs are questioned, we can use Schedule .2 to identify which department allocated the questioned incoming costs. Referring again to the CAP Table of Contents, the detail schedules for the sending Central Service Department can be located. Tracking continues by repeating these steps until all issues have been resolved.

Full Cost Allocation Plan for FY 24-25
Based on the Adopted Budget from FY 23-24
Schedule .1 - Nature and Extent of Services
For Department 101000 BOARD OF COMMIS**

The Board of Commissioners, as the legislative body of the County, directs all facets of County government by developing long- and short-range fiscal and operational policy. They originate and adopt ordinances that govern a variety of activities throughout the County.

In addition, the Board serves as the primary mechanism providing for citizen participation and response to local government through advisory commissions, committees, and Board meetings.

Two functions have been created to identify the work of the Board. The first function reflects the "Board of Director's" role, i.e., providing overall guidance to the various operating departments. The second function reflects the political nature of their work and involves interaction with other government agencies and the Washington County citizenry.

"Board of Directors" allocates 50% of the Board's budget to all operations based on the number of regular employee FTE's per Organizational Unit.

"General Government" allocates 50% of the Board's budget to all operations based on the total adopted budget, excluding contingency, for each Organizational Unit.

The combination of the above allocation bases reasonably distributes the cost of the Board.

WASHINGTON COUNTY, OREGON
Full Cost Allocation Plan for FY 24-25
Based on the Adopted Budget from FY 23-24
Schedule .1 - Nature and Extent of Services
For Department 151000 ADMIN OFFICE

The County Administrator, appointed by the Board of Commissioners, is the Chief Executive Officer of the County, responsible for the administration of All County departments. Five functions have been created to distribute costs of the office. (Note: each function was developed based on the distribution of each person in the County Administrator's Office to the particular function. In this fashion, a weighted distribution of costs is generated.) The functions are as follows:

- **County Administration** - Relates to overall support and guidance to All County departments. In addition, the County Administrative Office provides information, options, and opinions to the Board of Commissioners, and receives policy instructions from them on County matters. Costs are allocated to all operations based on departmental personnel (regular employee FTE's), excluding Clean Water Services.
- **Budget Analysis** - Relates to development and coordination of the countywide budget process, monitoring expenditures against the adopted budget, and special projects. Costs are allocated to all County departments based on adopted budget expenditures weighted to reflect "pass through" dollars, excluding Housing Authority.
- **Intergovernmental Relations** - Encompasses all activities associated with representing the County's interests on legislative matters, and the establishment of relations and working cooperative with other units and levels of government. Costs are allocated to County departments based on departmental personnel (regular employee FTE's).
- **Communications** - Includes internal and external outreach activities intended to support Board and County Administrative Office communications priorities and initiatives. Services include distributing traditional and social media content, developing and publishing web content, designing and printing hard copy materials, planning and coordinating outreach events and maintaining standards for graphics and logo usage. Costs are allocated to County departments based on departmental personnel (regular employee FTE's).
- **Other Commission Support** – Five staff within the County Administrative Office provide a general support role to the County Board of Commissioners and/or Board of Directors for other quasi-independent agencies (e.g. Clean Water Services). This support role primarily entails weekly compilation/recording of the Board's official records, providing staff support to the Board in responding to constituent information requests and miscellaneous office management functions that directly benefit the Board. Costs of this support are allocated to the Board of Commissioners under the category of "Commissioner – General Support."
- **Administrator** - This represents the County Administrator's salary and related expenses. Costs are allocated to all operations based on departmental personnel (regular employee FTE's), excluding Clean Water Services.

WASHINGTON COUNTY, OREGON
Full Cost Allocation Plan for FY 24-25
Based on the Adopted Budget from FY 23-24
Schedule .1 - Nature and Extent of Services
For Department 251000 COUNTY AUDITOR

The County Auditor, as a charter-mandated, elective office, serves to independently inspect the business affairs of the County and report details of any investigations to the Board of Commissioners, including recommendations for remedial action. Two functions have been identified for allocating County audit costs as follows:

- **Audit Administration** - General administration and supervision provided by County Auditor in support of organization-wide objectives. The cost of this service is allocated based on the total adopted budget, excluding "pass through" dollars, for each Organizational Unit.
- **Field Audit** - Detailed audit work performed by County Auditor. Fifty percent of the cost of this service is allocated to the General Fund and fifty percent to special funds based on the total adopted budget, excluding "pass through" dollars, for each Organizational Unit.

Based on the Adopted Budget from FY 23-24
Schedule .1 - Nature and Extent of Services
For Department 302020 A&T-SS**

The Department of Assessment and Taxation is responsible for the appraisal and assessment of property, collection of property taxes for all taxing entities in the County, recording of documents and land plats, issuing marriage licenses, and records retention. The Department also supervises the Elections activities. It should be noted that the direct costs of Appraisal, Tax Collections, Mapping, and Records Management are not distributed through this Plan.

This Plan distributes the administrative costs related to the supervision of the Elections activities directly to the Division. The remaining administrative costs of the Department are allocated directly to the Assessment & Taxation department.

WASHINGTON COUNTY, OREGON
Full Cost Allocation Plan for FY 24-25
Based on the Adopted Budget from FY 23-24
Schedule .1 - Nature and Extent of Services
For Department 321000 COUNTY EMERGENCY MGMT

The County Emergency Management office prepares the County and the community to respond to emergencies through planning, training, exercising, public education and outreach, and coordination with other agencies, businesses, and the public. This program develops emergency management plans, coordinates planning with and between departments and divisions, maintains County emergency operations facilities, coordinates training and exercises for County staff, provides preparedness resources for the public, and manages financial accounting for County emergency management staff. Costs are allocated to all operations based on departmental personnel (regular employee FTE's).

Schedule .1 - Nature and Extent of Services
For Department 351500 FINANCIAL MGMT

The Finance Division is responsible for all fiscal management systems of the County. Four functions have been created to allocate costs. Most of the Division's activities consist of services provided to all county departments on a continuous basis and includes the full accounting cycle effort of data entry and processing, report generation and assistance, accounting and system problem resolutions, reconciliation and audit. Costs of the Division are assigned and allocated in the following manner:

- **General Financial Management** - Represents the cost of all financial management and accounting activities not specifically included in one of the functions below. These functions include maintenance and reconciliation of the general ledger and balance sheet accounts, preparation of consolidated financial statements, special financial analyses and studies, as well as preparation of the CAFR and coordination of the external audit. Costs are allocated to each user department based on weighted 50% on Wisard journal entry line counts per fund and program combination, excluding projects, mass-allocations and encumbrances and 50% on adopted budget excluding contract services and contingency.
- **Accounts Payable** - Consists of reviewing invoices for County programs and processing of all accounts payable disbursements. Costs are allocated based on the number of invoice distribution lines per fund and program combination.
- **Payroll Services** - Represents the cost of paycheck generation for all County operations, and implementation of appropriate state and federal reporting requirements. Costs of this activity are allocated based on the number of budgeted FTE per program.
- **Treasury & Accounts Receivable** - Represents functions that include portfolio management, maintenance of banking relationships and contracts, including the executive Visa contract and travel card controls, cash forecasting, cash receipting, interest allocation, invoicing, A/R and collections. Costs of this activity are allocated based on the number of receipt distribution lines per fund program combination.

For Department 352500 INFO TECHNOLOGY SVCS

The Information Technology Services Division of the Support Services Department manages and operates the County's technological infrastructure consisting of digital networks for the transmission of voice, image, numerical and text data. Primary activities include: operate and maintain all digital systems, networks, servers, telephone/voicemail systems and personal computers; evaluate, purchase and develop new systems; and manage the County's Information Technology Services budget. This organizational unit includes all the costs for maintaining the operational readiness of the information technology and telecommunications infrastructure of Washington County. In order to better relate the cost of services to the service being provided, costs are budgeted by specific system support area. Costs of the division are allocated in the following manner:

"ITS OPS" relates to costs for Planning and Staff, support of Client Services and Help Desk, Network Infrastructure, Telecom, Audio Visual, Finance, Application Support, Geographic Information Systems (GIS), and WEB systems.

- **ITS OPS – A** - Allocates 50% of the ITS operating budgets to all departments based on the number of regular employee FTE's per Organizational Unit.
- **ITS OPS – B** - Allocates 50% of the ITS operating budgets to all departments based on adopted personnel service budget (account 51100) for each Organizational Unit.

"ITS Special Systems" include A&T systems, LUT System, Public Safety System, Housing System, Health System and Telecom Direct lines. Costs are allocated based on usage.

"ITS External Agencies" charges to external agencies that are in County's telephone systems or have access to other systems.

To see more detail regarding the breakdown of costs by program, please go to the internal web site for the County, HORIZONS, choose Support Services Department | Information Technology Services Division | Budget & Business Info | Cost Plan.

WASHINGTON COUNTY, OREGON
Full Cost Allocation Plan for FY 24-25
Based on the Adopted Budget from FY 23-24
Schedule .1 - Nature and Extent of Services
For Department 353000 PURCHASING

The Purchasing Services Division is responsible for managing both the formal and informal procurement processes for all County purchases, participating in the development and administration of all public contracts and professional services agreements, and establishing and monitoring uniform purchasing procedures.

- **Purchasing - General** - Relates to the economical and efficient procurement of goods and services for all County operations. The division issues purchase orders, monitors compliance with County purchasing regulations, and conducts training sessions to assist County personnel in staying current with revised rules, policies and procedures. Costs are allocated based on actual department usage as obtained through an extraction of purchasing requisition and release lines from WISARD.
- **Purchasing - Bids/Proposals** - Relates to work performed in developing and processing Bids and Request For Proposals (RFP's). This activity includes preparing the solicitation documents, printing, advertising and distribution of the documents. Also, answering questions, issuing addendums and tabulating solicitation results. Purchasing may also assist in the selection of professional services proposers and prepares the materials to the Board of Commissioners. Costs are allocated based on the number of formal transactions (bids, proposals, exemptions, etc.) processed for respective organizational units; weighted by whether Purchasing staff performed the entire process, reviewed the entire process, or prepared an agenda.

Schedule .1 - Nature and Extent of Services
For Department 353500 FACILITIES MANAGEMENT

The Facilities and Parks Services Division is responsible for the maintenance and repair of structural, electrical and mechanical functions of County owned and leased buildings. The Division oversees janitorial contracts, lease contracts, and grounds maintenance. This Division also manages parks, timber and other County-owned real property. Service is allocated by square footage. See the Horizon Facilities web site for facilities square foot breakdowns.

- **Facilities Operations and Maintenance** - Represents both in-house staff and vendors engaged in routine service work on building systems such as machinery (elevators), plumbing, HVAC, security, electrical, painting, environmental, & carpet. This cost is allocated to user departments based on square footage.
- **Janitorial Services** - Represent contract costs and supplies for janitorial service. This cost is allocated to user departments based on square footage.
- **Grounds Maintenance** - Represents costs of grounds maintenance and repair (including sidewalks and parking lots). This cost is allocated to user departments based on square footage.
- **Utilities** - Represents costs related to electric, water, and sewer for various buildings. This cost is allocated to user departments based on square footage.

Schedule .1 - Nature and Extent of Services
For Department 357010 LIABILITY INSUR

This fund pays for actual claims costs, adjustment services and legal services for the County's self-insured liability and casualty program. The fund also pays for property insurance and bond premiums and for liability insurance where the County is not self-insured.

Due to the volatility of costs from year to year for this service, costs distributed through this plan are based on the projected costs known for the next fiscal year, rather than budgeted costs for current fiscal year. While this is a departure from the basis used for other cost centers in the plan, the use of projected costs will minimize the carry forward adjustment arising when the plan is reconciled to actual costs costs.

- **General Liability** - Distributed based upon claims history and loss exposure with total projected claim costs provided by the County's actuary.
- **Real Property** - Distributed based on square footage per program.
- **Auto Property, Inland Marine, and Auto Liability** - Distributed based on 100% of mileage (three year average) tracked by the Fleet Division of Support Services. If the percentage of miles driven is less than 0.05% of the total County miles a minimum charge of \$150 is applied.

Schedule .1 - Nature and Extent of Services
For Department BUILDING DEBT INTEREST

This cost pool has been created to allocate non-voter-approved debt interest related to County facilities across all office building square footage. Base costs used in this plan section were derived from Debt Service Schedules related to the Juvenile portion of Series 2004 Full Faith & credit obligations, the Debt Service on Service Center East. Any future debts issued to provide additional office space will be examined for possible inclusion in this cost pool. The Debt Service is allocated using square footage of certain office space as provided by Facilities Management.

WASHINGTON COUNTY, OREGON
Full Cost Allocation Plan for FY 24-25
Based on the Adopted Budget from FY 23-24
Schedule .1 - Nature and Extent of Services
For Department BUILDING DEPRECIATION

The County has implemented a policy regarding capitalization of fixed assets in accordance with GASB requirements. The County's fixed assets records provide the historical or original acquisition cost, includes the cost of major improvements, and the annual depreciation cost. Federal cost principles provide for depreciation as an allowable expense for cost allocation purposes (2 CFR 200.436). The County maintains depreciation inventory in its fixed asset system; the two charges below are from that system.

- **Building and Component Equipment Depreciation**- This function allocates building depreciation to County programs based on square feet occupied by organization unit or program, where applicable.
- **General Fund Equipment Depreciation** - This function relates to normal office equipment for General Fund departments. Costs are allocated to the respective departments based on equipment inventory per program.
