Washington County, Oregon POINT-IN-TIME HOMELESS COUNT

(January 2011)

Since 2003, HUD has required continuums across our nation to report the number of people who are homeless at a particular time of the year (in the last seven days of January). The annual homeless count facilitates the need for continuums to collect data and report on the number of homeless. The data is used for (1) housing and service planning, (2) demonstrating need, (3) raising public awareness, (4) accurately identifying the needs population, e.g. chronically homeless, and (5) measuring performance in reducing/ending homelessness.

The Washington County homeless count data includes those persons counted at a point-in-time on January 26, 2011, who lack a fixed, regular and adequate nighttime residence and includes persons who:

- a) are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
- b) are living in motel/hotel, emergency shelter, transitional and Safe Haven beds;
- c) are unsheltered (living in car, parks, public spaces, abandoned buildings, bus or train stations, or similar settings, etc.);
- d) are persons temporarily in an institution (e.g. jail or hospital) and came from or will return to one of the above situations.

To ensure non-duplication of persons interviewed during the homeless count, a unique identifier code system was developed. Homeless persons interviewed during the January street count and those persons residing in shelter, transitional, and institutional beds were entered into the county's HMIS (Homeless Management Information System). The outcomes demonstrated by this process ensured non-duplication of persons counted, created efficiencies for emergency shelter, transitional and Safe Haven housing providers using existing client data in HMIS, and will provide accuracy of data at the local and state reporting levels.

HEARTH Act and Federal Strategic Plan

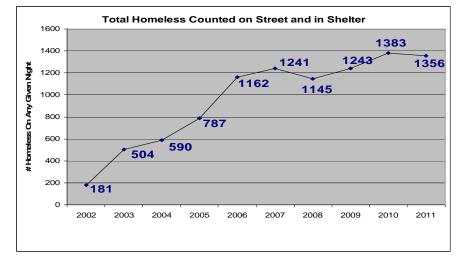

Signed into law on May 20, 2009, the Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act reauthorizes the McKinney-Vento Act to:

- Amend the definition of homelessness to broaden the population of persons who can be served by federally funded homeless assistance programs;
- Replace the Emergency Shelter Grant with a new Emergency Solutions Grant that provides flexible funding to include prevention of homelessness;
- Codify the Continuum of Care (CoC) model that has been administered by HUD;
- Legislate high standards of data reporting and performance measures.

On June 22, 2010, the first-ever federal plan addressing efforts to prevent and end homelessness was released. *Opening Doors: Federal Strategic Plan to Prevent and End Homelessness*, aligns with the HEARTH Act and is the roadmap for joint action by the 19-member U.S. Interagency Council on Homelessness along with local and state partners in the public and private sectors. It will provide a reference framework for the allocation of resources and the alignment of programs to achieve our goal to prevent and end homelessness in America. Washington County, Oregon POINT-IN-TIME HOMELESS COUNT

(January)

Homeless trends in Washington County, Oregon.

* Total homeless population includes 902 Adults and 454 Children < 17 years.

* Chronically homeless comprise <u>36%</u> of unaccompanied homeless population.

* Persons in family households comprise 57% of the homeless population.

Unsheltered Homeless vs. Sheltered Homeless Persons

- 1,156 persons are unsheltered¹
 - 200 persons are in shelter/transitional/safe haven beds
- Total Homeless <u>Households</u>²: 838 (741 households unsheltered)
 - 250 family households with children and couples without children
 - 33 unaccompanied homeless youth <17 years households
 - 555 unaccompanied adult 18+ years households

Annette_Evans@co.washington.or.us

¹ Unsheltered Persons include those persons living in places not meant for human habitation.

² *Household* is defined as one or more persons present together.

- <u>Area # 10 Buxton, Banks, North Plains,</u> <u>and Helvetia</u>

2009 Homeless Count, Community Action

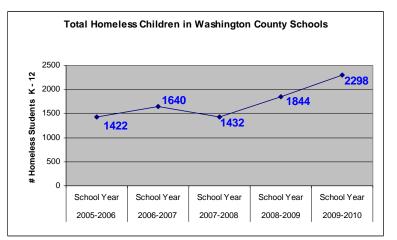

Washington County, Oregon HOMELESS STUDENTS IN GRADES K - 12

(Oregon Department of Education)

The Education for Homeless Children and Youth (EHCY) program is part of the No Child Left Behind Act and is more commonly called "the McKinney-Vento Homeless Education Program". Each school district is required to have a McKinney-Vento Homeless Liaison to assist children and youth experiencing homelessness to enroll in, attend, and succeed in school. Liaisons ensure students are enrolled in school, have the supplies they need and provide referrals to the community services for shelter, health care and counseling. This effort includes data reporting to state and federal officials.

As provided by the McKinney-Vento Homeless Student Liaison, the data below reflects those homeless children and youth (Kindergarten through 12 grade) who lack a fixed, regular and adequate nighttime residence, and includes children and youth who:

- a) are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason
- b) are living in a motel
- c) are living in a shelter
- d) are unsheltered (living in car, tent, etc.)
- e) are inadequately housed (lacking heat, water, electricity; overcrowded)
- f) are unaccompanied youth (homeless and not in custody of legal guardian)

Washington County, Oregon HOMELESS POPULATION ETHNICITY

(January)

The diversity of Washington County is reflected in the diversity of our homeless population. The reasons for homelessness include many socioeconomic factors relating to poverty and the economic recession to include inability to pay rent/mortgage, unemployed and under-employed, domestic violence, drug and alcohol addictions, mental health, criminal history, etc.

The primary reasons for homelessness reported in the 2011 homeless count include 54% *Couldn't Afford Rent* (455 households as compared to 340 households in 2010), and 52% *Unemployed/Under-employed* (433 households as compared to 412 households in 2010).⁴

2010 Profiles of Hunger and Poverty in Oregon published by the Oregon Food Bank, 2009 ACS Data U.S. Census Bureau, 2010 Census Data

Profile of Washington County's Low-Income Community

- The 2011 poverty level for a family of three is \$18,530 annually, yet a single parent working full time earning minimum wage has an annual income of \$17,680.
- For a family of three to be self-sufficient, they must have an annual income of \$67,788, which is 273% of the Federal Poverty Level (FPL).
- For a family of three to afford a 2 bedroom apartment in Washington County at the <u>2011 Fair Market Rate</u>, the household must have an annual income of \$43,344 which is 195% of the FPL.
- In 2009, more than 1 in 4 households (29%) living below the FPL had at least one working member.
- In 2010, 46% of households accessing emergency assistance from Community Action had at least one working member at the time of assistance.
- Entry into poverty often follows an event such as loss of employment, onset of a disability, incarceration, change from a two adult household to a single-head of household or entry of a child under the age of six into the household.
