Why get involved? What are the benefits?

Participating on a leadership level in your Community Participation Organization and civic life can be very rewarding.

Playing a Leading Role

CPO leaders host community meetings which provide a place for representatives of Washington County and service district providers to visit the CPO 12C community with information on a wide range of livability topics.

Making Connections

As a CPO leader, you would have the opportunity to engage with community leaders and become better known within your community.

Learning New Skills

As a CPO leader, you would gain experience in meeting facilitation, agenda planning, group process, community engagement methods and potentially take part in policy development. In addition, you may gain a better understanding of how government operates and the mechanisms used to influence policies and practices.
