Ever wonder how ODOT picks fix-it projects?

The State's Fix-It Program is responsible for keeping state highways in good repair. It's the largest single category of funding (more than \$800 million over three years) in the Statewide Transportation Improvement Program (STIP). The Oregon Department of Transportation (ODOT) selects projects by using a combination of data collection and analysis, engineering expertise, community needs and available funding. To demonstrate this process, a video was created at: www.youtube.com/watch?v=drx-akQYA1c4&feature=youtu.be. Stay informed at: www.oregon.gov/odot/stip/Pages/index.aspx
