**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

# Benton County

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

# Clackamas County

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

askprc@pdx.edu

**NOTES**

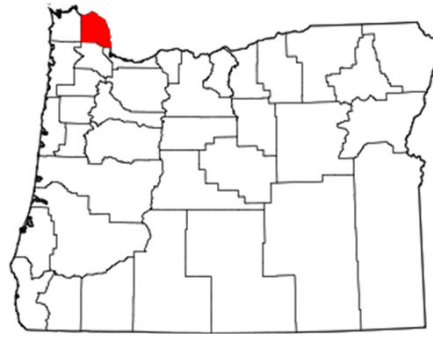

- \* The bar chart illustrates the county value relative to the Oregon counties with the maximum and minimum values for selected items numbered in the left margin. For example, if the max = 10.0% and min = 2.0%, a value of 6.0% would extend to the 50% mark.
- \* Group Quarters facilities as of Oct. 2019; not known in 2010.
- \* Most frequent combinations of two or more races in 2020 shown; percentages refer to share of total population that is two or more races.
- \* Race alone or in combination contains total races tallied and may sum to over 100% of the population.

Sources: U.S. Decennial Census P.L. 94-171 Redistricting Data SF; 2010 Census SF1; analysis by Population Research Center, Portland State University; Additional 2019 data from BEA (employment, GDP in current dollars), Oregon Health Authority (births, deaths), American Community Survey 2015-19 SF, National Vital Statistics System (life expectancy from deaths 2017-2019), and Address Count Listing File (GQ facilities).

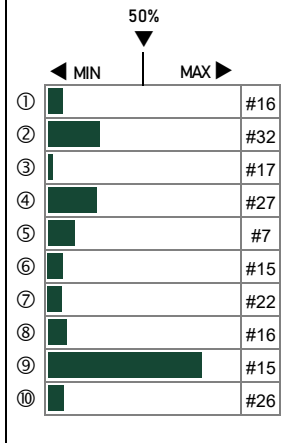

# Coos County

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**NOTES**

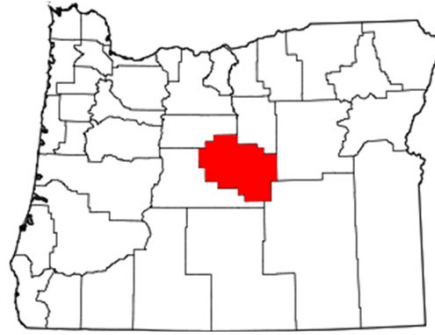

- \* The bar chart illustrates the county value relative to the Oregon counties with the maximum and minimum values for selected items numbered in the left margin. For example, if the max = 10.0% and min = 2.0%, a value of 6.0% would extend to the 50% mark.
- \* Group Quarters facilities as of Oct. 2019; not known in 2010.
- \* Most frequent combinations of two or more races in 2020 shown; percentages refer to share of total population that is two or more races.
- \* Race alone or in combination contains total races tallied and may sum to over 100% of the population.

# Crook County

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

# Gilliam County

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

# Grant County

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

[askprc@pdx.edu](mailto:askprc@pdx.edu)

**NOTES**

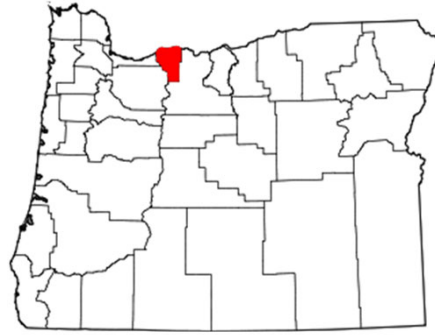

- \* The bar chart illustrates the county value relative to the Oregon counties with the maximum and minimum values for selected items numbered in the left margin. For example, if the max = 10.0% and min = 2.0%, a value of 6.0% would extend to the 50% mark.
- \* Group Quarters facilities as of Oct. 2019; not known in 2010.
- \* Most frequent combinations of two or more races in 2020 shown; percentages refer to share of total population that is two or more races.
- \* Race alone or in combination contains total races tallied and may sum to over 100% of the population.

**Sources:** U.S. Decennial Census P.L. 94-171 Redistricting Data SF; 2010 Census SF1; analysis by Population Research Center, Portland State University; Additional 2019 data from BEA (employment, GDP in current dollars), Oregon Health Authority (births, deaths), American Community Survey 2015-19 SF, National Vital Statistics System (life expectancy from deaths 2017-2019), and Address Count Listing File (GQ facilities).

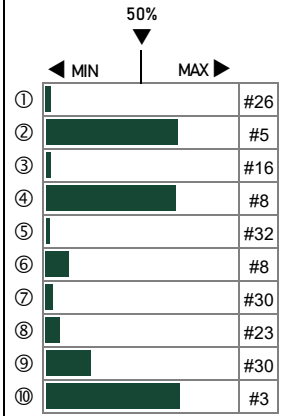

# Hood River County

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

# Josephine County

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**ABOUT PRC**  
 Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

**NOTES**

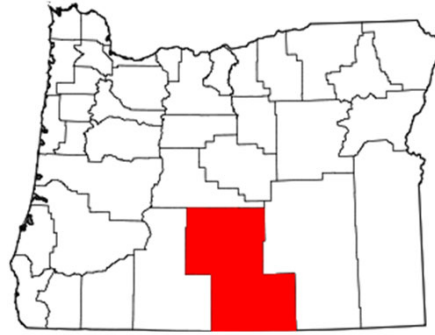

- \* The bar chart illustrates the county value relative to the Oregon counties with the maximum and minimum values for selected items numbered in the left margin. For example, if the max = 10.0% and min = 2.0%, a value of 6.0% would extend to the 50% mark.
- \* Group Quarters facilities as of Oct. 2019; not known in 2010.
- \* Most frequent combinations of two or more races in 2020 shown; percentages refer to share of total population that is two or more races.
- \* Race alone or in combination contains total races tallied and may sum to over 100% of the population.

**Sources:** U.S. Decennial Census P.L. 94-171 Redistricting Data SF; 2010 Census SF1; analysis by Population Research Center, Portland State University; Additional 2019 data from BEA (employment, GDP in current dollars), Oregon Health Authority (births, deaths), American Community Survey 2015-19 SF, National Vital Statistics System (life expectancy from deaths 2017-2019), and Address Count Listing File (GQ facilities).

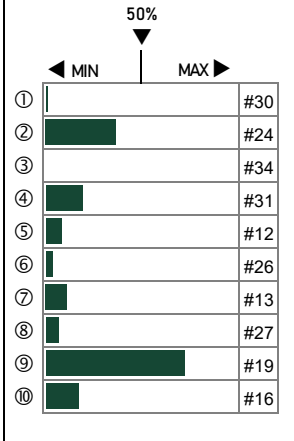

# Lake County

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

### 2020 PROPORTION AND RANK AMONG OREGON COUNTIES\*

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

# Linn County

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

2020 PROPORTION AND RANK AMONG OREGON COUNTIES\*

# Malheur County

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

- NOTES**
- \* The bar chart illustrates the county value relative to the Oregon counties with the maximum and minimum values for selected items numbered in the left margin. For example, if the max = 10.0% and min = 2.0%, a value of 6.0% would extend to the 50% mark.
  - \* Group Quarters facilities as of Oct. 2019; not known in 2010.
  - \* Most frequent combinations of two or more races in 2020 shown; percentages refer to share of total population that is two or more races.
  - \* Race alone or in combination contains total races tallied and may sum to over 100% of the population.

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

# Polk County

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

2020 PROPORTION AND RANK AMONG OREGON COUNTIES\*

# Sherman County

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

**ABOUT PRC**

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

**NOTES**

- \* The bar chart illustrates the county value relative to the Oregon counties with the maximum and minimum values for selected items numbered in the left margin. For example, if the max = 10.0% and min = 2.0%, a value of 6.0% would extend to the 50% mark.
- \* Group Quarters facilities as of Oct. 2019; not known in 2010.
- \* Most frequent combinations of two or more races in 2020 shown; percentages refer to share of total population that is two or more races.
- \* Race alone or in combination contains total races tallied and may sum to over 100% of the population.

# Wallowa County

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

### ABOUT PRC

Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements.

**NOTES**

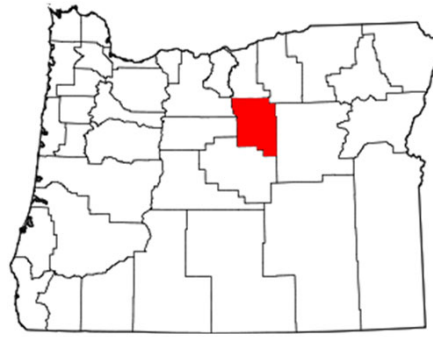

- \* The bar chart illustrates the county value relative to the Oregon counties with the maximum and minimum values for selected items numbered in the left margin. For example, if the max = 10.0% and min = 2.0%, a value of 6.0% would extend to the 50% mark.
- \* Group Quarters facilities as of Oct. 2019; not known in 2010.
- \* Most frequent combinations of two or more races in 2020 shown; percentages refer to share of total population that is two or more races.
- \* Race alone or in combination contains total races tallied and may sum to over 100% of the population.

# Wheeler County

## 2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

# Yamhill County

2020 Census Summary

**INTRODUCTION** The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24th census in U.S. history and the first time that households were invited to respond to the census online. Results released in August, 2021 provide counts of the population in households and group quarters living arrangements and allow us to measure racial and ethnic diversity down to the block level for the first time in a decade.

- NOTES**
- \* The bar chart illustrates the county value relative to the Oregon counties with the maximum and minimum values for selected items numbered in the left margin. For example, if the max = 10.0% and min = 2.0%, a value of 6.0% would extend to the 50% mark.
  - \* Group Quarters facilities as of Oct. 2019; not known in 2010.
  - \* Most frequent combinations of two or more races in 2020 shown; percentages refer to share of total population that is two or more races.
  - \* Race alone or in combination contains total races tallied and may sum to over 100% of the population.

| ABOUT PRC   |  |
|---|--|
| Located within the College of Urban Planning and Affairs at Portland State University, we track Oregon's growth and use housing, socioeconomic, and health data to measure and understand demographic change. PRC also produces population projections, redistricting analysis, and other solutions to support policy analysis and help agencies meet statutory requirements. |  |
