Methodology for OR-506 - Hillsboro, Beaverton/Washington County CoC

Sheltered Population Total

1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).

HMIS Data	100%
Provider-level surveys	0%
Client-level surveys	0%
Observation	0%
Other	0%
Total	100%

2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some? listed on your HIC or only some?

- Complete census count

3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number

Sheltered Subpopulation

4. What data source(s) was used to produce the demographic and subpopulation data included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? (select all that were used)

- HMIS Data
- Provider-level surveys

Point In Time Methodology for OR-506 - Hillsboro, Beaverton/Washington County CoC

5. Was the CoC able to collect information about the demographic and subpopulation characteristics of all sheltered people or only some?

- All sheltered people

6. Looking at the change in your sheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below.

- Change in emergency shelter capacity

Please provide a brief description of these specific factors (500 word limit):

Sheltered Population increased to 359 people in 2021, as compared to 270 people in 2020.
INCREASED SHELTER CAPACITY: 183 seasonal shelter beds added in response to the COVID pandemic that included local public and private funds leveraging the following Federal CARES Act funding sources:

- * Emergency Solution Grant-CV,
- * Emergency Food & Shelter Program-Phase 37 CARES, and
- * County CARES Coronavirus Relief Fund (CRF)

CHANGE IN CAPACITY DUE TO COVID-19: Implemented a new 120-day "enrolled" shelter program to prevent COVID disease transmission by operating five shelter sites throughout the CoC that provided 24/7 shelter services to persons enrolled in the program. This prevented unhoused populations from moving around the CoC seeking shelter and resources on a daily basis.

CHANGE IN PARTICIPATION OF PROGRAMS DUE TO COVID-19: Due to COVID-19, shelter services provided by Interfaith Hospitality Network (Family Promise of Washington County) ended as Oregon Governor enacted Executive Order 20-12 to "Stay Home, Stay Safe" resulting in churches ending their overnight shelter services that were still closed in January 2021. Shelter and Transition Housing programs with common areas (e.g. restroom, kitchen and living room) reduced the number of occupants in the program to prevent COVID disease transmission.

Unsheltered Population

7. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count. (select all that were used)

- "Night of the count" - complete census

Point In Time Methodology for OR-506 - Hillsboro, Beaverton/Washington County CoC

7a. Were certain areas within the CoC geography specifically excluded because the CoC had reason to believe there were no unsheltered people in those areas?

No

7c. In areas that were canvassed, did the CoC count all unsheltered people in those areas or a sample of people?

- All people encountered during the count

8. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)

Point In Time Methodology for OR-506 - Hillsboro, Beaverton/Washington County CoC

- Blitz count of unsheltered people (i.e., canvassing of different areas occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

Unsheltered Subpopulations

9. What approach(es) was used to collect demographic and subpopulation data about unsheltered people included in the unsheltered population during the PIT count?

- Surveys/interviews of people identified as unsheltered on the night of the PIT count
- Surveys/interviews of people identified within 7 days following the night of the PIT count night who may have been unsheltered on the night of the PIT count (e.g., “service-based” surveys at locations where people who are homeless go for assistance)
- Other:

10. Were all people who were encountered during canvassing on the night of the count or during post night of the count PIT activities asked to complete a survey/interview?

- All people encountered were surveyed

11. What information or method(s) was used to produce an unduplicated total count of homeless people across your sheltered and unsheltered populations?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)
- Blitz count of unsheltered people (i.e., sheltered and unsheltered counts occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

12. Looking at the change in your unsheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below

- Change in participation of programs serving general homeless populations (e.g., singles, families)
- Increased or improved PIT count training

Please provide a brief description of these specific factors (500 word limit):

Point In Time Methodology for OR-506 - Hillsboro, Beaverton/Washington County CoC

New in 2021 is use of Simtech Solution Mobile Application – Counting Us - with GPS.

Unsheltered Population increased to 357 people in 2021, as compared to 307 people in 2020.
CHANGE IN PARTICIPATION OF PROGRAMS: In 2020 the CoC implement a national Community Solutions initiative – Built For Zero – that included expanding outreach programs to provide greater geographic coverage and develop relationships with the unhoused population. The PIT unsheltered count included outreach and peer support staffing that performed Wellness Checks, provided information on COVID symptoms, testing and vaccination availability, and collected demographic data of the unhoused population. The expanded outreach increased the effective use of enumerators to cover the geographic region of the CoC for the PIT noting an increase in unsheltered persons as unhoused persons report leaving the metropolitan area where riots are occurring to seek safe refuge in suburban and rural areas of Washington County's CoC jurisdiction.

INCREASED OR IMPROVED PIT COUNT TRAINING: The PIT training for 52 enumerators (e.g. social workers and outreach workers) included COVID safety protocols and the use of a new Simtech Solutions APP (Counting Us) to collect data and map locations of PIT interviews. The APP automated the collection of data for the annual homeless census using cell phone devices with training on use of the APP and privacy/security of all data collected. The data was imported into an HMIS comparable database and used to extrapolate the 2021 Point-In-Time data.
