

North Bethany Main Street

Street Furniture Options

A distinct palette of street furniture—benches, trash cans, tree grates, bike racks, etc.—can help enhance the unique character of a district. Any furniture palette should coordinate with the streetlight specified for Kaiser Road (see below).

We'd like your input again!

You voted on your favorite furniture palette at the first Open House in February (those results are indicated below). Did you make the right call?

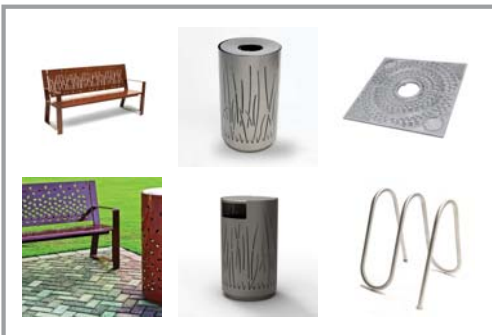

Please take a sticker and place it next to your favorite furniture palette for North Bethany.
