

North Bethany Main Street

Priority Streets Elements

The map on the *Priority Pedestrian Streets* poster shows where Priority 1 and 2 streets are proposed within the Main Street area.

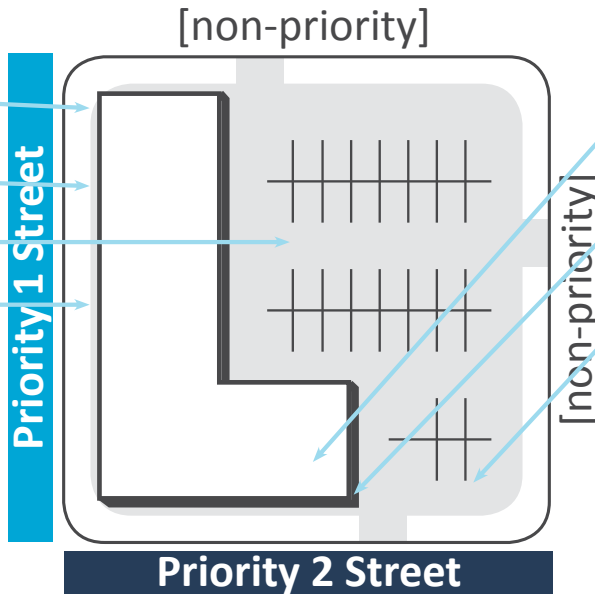

Priority 1 Streets

Development on the **Priority 1 street (Kaiser Road)** will be more urban in character and must be sited and designed to support a pedestrian-friendly environment. Some of the key required features are illustrated below.

- Buildings close to sidewalks
- High street frontage
- Parking behind building
- No driveways

- Primary building entry required
- High transparency (windows & doors)

Non-priority Streets

Non-priority streets will accommodate vehicle access.

- Parking, driveways allowed
- No requirements for setbacks, orientation, entrances, transparency

Priority 2 Streets

Priority 2 streets will have many of the pedestrian-friendly features of Priority 1 streets, but to a lesser extent. A few of these features are illustrated below.

- Buildings close to sidewalks
- Lower street frontage required
- Parking allowed to side
- Limited driveways

- Secondary building entry required
- Lower transparency required
