

How an issue or idea becomes a land use regulation

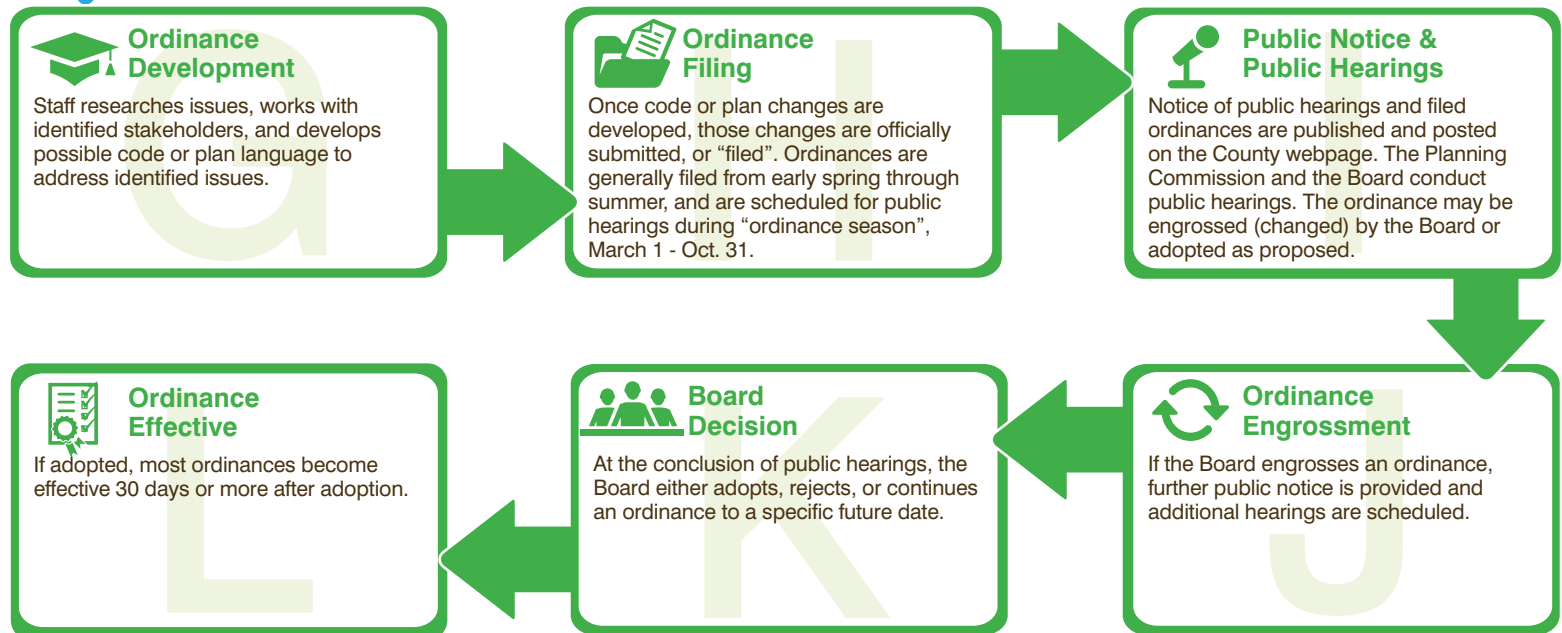

Part 1: The Annual Work Program

Each year, an annual Long Range Planning (LRP) Work Program is prepared and adopted by the Board of Commissioners (Board). The work program describes planning projects, potential land use ordinances and other LRP activities for the year.

Part 2: Processing an Ordinance

A land use ordinance adopts, amends or repeals provisions of the Washington County Comprehensive Plan, which includes the Rural/Natural Resource Plan, the Comprehensive Framework Plan for the Urban Area, Community Plans, the Transportation System Plan, the Community Development Code and/or related maps.

The Long Range Planning Work Program

Each year, the Long Range Planning section of the Department of Land Use & Transportation (LUT), prepares a work program for approval by the Board of Commissioners (Board). The work program describes planning projects, potential land use ordinances and other Long Range Planning activities for the year.

A draft annual work program is presented to the Board at the beginning of each year and then released by the Board to the public and interested parties for review and comment in early spring. Upon consideration of public comments submitted through this process, the Board finalizes the work program for adoption soon after.
