- If approved, this would be the first increase in the rate since the original levy in the year 2000.
- In 2021, typical homeowners, based on an average assessed value of \$300,000, would pay \$141 per year, or about \$20 more than they paid in 2020.
- This assumes an average assessed value (not market value) of \$300,000.
- The tax due in future years would depend on changes in assessed value.

Proposed rate and tax impact, if the levy does not pass:

- If the levy does not pass, the additional local option property taxes would not be levied.
- In 2021, typical homeowners, based on an average assessed value of \$300,000, would see a \$126 per year reduction in their property taxes.
- If the levy does not pass, there would be a reduction in services in Washington County affecting prosecution, law enforcement, supervision, corrections and emergency shelters likely to begin in 2021.
