

Candidate 161b – 174th Avenue

Need/request: Fill gaps in existing sidewalks/pathways along 174th Avenue between Bronson and Laidlaw so pedestrians do not have to walk in the travel lane with vehicles or alongside the road in the grass and mud.

Proposed solution: Construct about 800 feet of 5-foot-wide paved pathway, separated from the travel lane behind the ditch, along the east side of 174th Avenue from Parkview Drive to Bethany School entrance. This will provide a continuous pedestrian walkway along the east side of 174th from Sandpines Lane to Laidlaw Road.

Estimated cost: \$294,000 assuming some drainage improvements maybe required and adequate right-of-way exists behind the ditch.
