Pedestrian Critically Injured After Hit and Run Crash

July 8, 2022

On Thursday, July 7, 2022, at 7:22 p.m., Washington County Sheriff's Office deputies responded to an injury crash on SW Barnes Road, near St. Vincent's Hospital. When deputies arrived, they found 72-year-old Diana Petty lying in the road with critical injuries and discovered the car that hit her had left the scene.

A nurse from St. Vincent's Hospital was already providing aid to Petty, who was later rushed to a nearby trauma hospital where she remains in critical condition.

The Washington County Crash Analysis Reconstruction Team (CART) responded to the scene to conduct the criminal investigation.

From the preliminary information available, deputies believe the driver of a 2015 Subaru Legacy ran a red light and hit Petty as she crossed SW Barnes Road in a crosswalk. Investigators located the Subaru this morning parked in a neighborhood near the crash.

The investigation is ongoing, and deputies ask community members to contact the Sheriff's Office at (503) 629-0111 if they witnessed the crash or have any information.

The [Crash Analysis Reconstruction Team](#) (CART) is a multi-agency team of specially trained law enforcement officers from the Sheriff's Office, local police departments, and the Washington County District Attorney's Office. The team investigates and reconstructs traffic crashes that may result in the prosecution of felony assault or manslaughter charges. The team can also assist with diagramming crime scenes.
